

ICMERR

2025 the 9th International Conference on Mechanical Engineering and Robotics Research (ICMERR) will be held in Barcelona, Spain from January 15 to 17, 2025. ICMERR aims to be one of the leading international conferences for presenting novel and fundamental advances in the fields of mechanical engineering and robotics. The conference seeks to bring together experts from academia, industry, and government to promote interdisciplinary collaborations and facilitate the development of innovative solutions to real-world problems. ICMERR also serves to foster communication among researchers and practitioners working in a wide variety of scientific areas with a common interest in improving mechanical engineering and robotics techniques.

Call for Papers

Topics of interest include, but are not limited to:

1. Robotics and Automation:

Automation, CNC Machines & Robotics
Autonomous Robotic Vehicles

2. Mechanics and Thermodynamics:

Analytical Mechanics
Applied Mechanics

3. Artificial Intelligence and Perception:

Active Perception & 3-D Perception
Artificial Intelligence

4. Manufacturing and Production:

Industrial Engineering & Management
Machine Design

5. Combustion and Propulsion:

Combustion and Fuels
I.C. Engines & Automobile Engineering
